

Group **BRAIN STORM** **Activity**

A graphic featuring a human brain with a large question mark in the center. A yellow lightning bolt strikes the top of the brain. Radiating lines emanate from the brain, suggesting a 'brainstorm' or idea generation process.

Directions: In your group please use your notes on page 11 and 12 or Section 11.1 (pg. 325 – 329) in the textbook to answer the following questions on a piece of Chart Paper about the specific invention that you are given.

Purpose: Examine the relationship between the creation of your provided invention and its larger social and economic impact on the country as a whole.

Invention: _____

1. What region(s) are effected most by this invention?
2. How did it effect the society of this region (people, families, social classes)?
3. How did it effect the economy of the region (jobs, workers, money, etc.)?
4. Did it effect the country in any other way?
